PROFESSIONAL EXPERIENCE

Infosys Ltd – Systems Engineer | Aug 2022 – Feb 2024
Vanguard Project:
- Developed 20+ optimized frontend modules with React, achieving a load time reduction of 50% for the main application, enhanced user experience through implementing advanced lazy loading techniques and component-based architecture.
- As a frontend developer built reusable UI components , added multilingual support, and applied UX layout principles.
- Performed unit testing and resolved 3 critical bugs, improving frontend code quality and reducing QA rework by 30%.

Government of Canada Project:
- Customized Drupal themes with responsive, pixel-perfect layouts using HTML5/CSS3/JS.
- Ensured accessibility and cross-browser compatibility in interactive components.

Frontend Developer(Independent Projects) | Feb 2024 – Present
- Took a short personal break while actively upskilling in React and modern frontend workflows.
- Built below mentioned personal projects, explored unit testing tools, and contributed to GitHub repositories.

PROJECTS

Booksky App – https://pravitha99.github.io/Booksky-App/
- Book management app with full CRUD operations, modern UI, and clean code using JavaScript and DOM APIs.
Udemy Clone – https://pravitha99.github.io/udemy-clonepractical/
- Engineered a pixel-perfect, responsive recreation of Udemy's homepage utilizing HTML, CSS, and JavaScript, achieving a 95% similarity score based on visual regression testing and design specifications.
Personal Portfolio – https://pravitha99.github.io/My-portfolio/
- Portfolio showcasing frontend skills, GitHub projects, and self-learning progress during the career break.
Greenden Project – https://pravitha99.github.io/Greenden-tailwind/
Developed a responsive multi-page website using Tailwind CSS with Home, Products, and Contact sections.
